

Red Butte Garden and Arboretum Fall Bulb & Native Plant Sale 2025

Garlic Bulbs

When you grow your own garlic, you can enjoy a more diverse flavor profile, larger bulbs, and more variety choices than store-bought garlic. You can choose varieties for storage or flavor, or both! Sourced locally from First Frost Farm in Nibley, Utah.

**Selections may vary based on availability*

Hardneck

Hardneck varieties have a strong, spicy flavor. They have fewer, and larger cloves, as well as edible scapes. The thin skins are easy to peel but reduce storage life.

Varieties

German Extra Hardy

Music

Rosewood

Chesnok Red

German Red

Softneck

Softneck garlic is the type commonly found in grocery stores. The many tightly wrapped cloves store longer than hardneck varieties. They have flexible stalks that are perfect for braiding.

Variety

Inchelium
