

# Leaf Bingo

There are so many different types of leaves! Head outside to see if you can be the first to find a row of 5, a letter “T”, “H”, or blackout. Use the legend below to help with your search.

<p><b>Cordate</b> Heart-shaped.</p> 	<p><b>Skeletonized</b> Caused by decomposition, insect, or disease.</p> 	<p><b>Serrated</b> Leaf edges are jagged, like a saw.</p> 
<p><b>Oval</b> The leaf has an over-all oval shape.</p> 	<p><b>Damaged</b> Caused by insect feeding, disease, or physical damage.</p> 	<p><b>Linear</b> Leaf is long and thin.</p> 
<p><b>Fragrant</b> Crush and smell it. Does it smell good or bad?</p> 	<p><b>Short Needles</b> Usually found on firs, spruces and cedars.</p> 	<p><b>Long Needles</b> Usually found on pine trees.</p> 
<p><b>Red</b> Leaf is red in color.</p> 	<p><b>Pinnate</b> Small leaflets grow from one petiole, or leaf stem.</p> 	<p><b>Digitate</b> Leaf looks like a hand with individual fingers.</p> 
<p><b>Palmate</b> Leaf has an overall hand or star-like shape.</p> 	<p><b>Funny Shape</b> Find a leaf unlike any you've ever seen before.</p> 	<p><b>Lobed</b> Leaf has deep, wave-like edges.</p> 
<p><b>Purple</b> Leaf is purple in color.</p> 	<p><b>Diseased</b> Spots or discoloration can be a sign of disease.</p> 	<p><b>Leaf Gall</b> A bump on a leaf, usually made from an insect.</p> 
<p><b>Deltoid</b> Overall triangular in shape.</p> 	<p><b>Variegated</b> Multicolored leaf.</p> 	<p><b>Trifoliolate</b> Leaf splits into 3 smaller leaflets.</p> 
<p><b>Blue</b> Commonly found on evergreen trees.</p> 	<p><b>Scale-Like</b> Needles are scale-like.</p> 	<p><b>Dead</b> Keep an eye on the ground for a dead, brown leaf.</p>
